

September 2003 Newsletter

Welcome to our third monthly newsletter! We've received some very positive feedback about past issues and we hope these newsletters will keep you current on our products and events! You can expect to receive one of these letters at the beginning of each month

Please take a minute to look over the newsletter and feel free to give us any feedback so we know what you'd like to see in future issues.

AiROCK™ Extended Warranty

As mentioned in previous newsletters we're offering extended warranty plans on AiROCK™ systems. The plan includes free hardware replacements and free software updates for a \$295.00 yearly subscription fee. Please contact info@offroadonly.com or call 952-226-4317 for details.

Don't forget to visit our web site and online store!

www.offroadonly.com

We want to see your "AiROCKed" rig in action! Every month we'll feature a new vehicle with a photograph and statistics. Please send entries to info@offroadonly.com.

Is your OBA up to the task?

Filling the occasional tire and running air tools once and a while is one thing, but providing a reliable quality air source that is used all day long is another. We now provide the highest quality parts and a great deal of first hand experience to ensure that you have the highest quality on board air system possible. From our bulletproof stainless steel compressor hose to our aluminum bowl Extreme Duty Oil Filter, we continue to lead the industry with top of the line equipment.

Call or e-mail us to discuss what you need and the best ways to install and maintain it. We're constantly adding new OBA products to our online store so be sure to check back often!

New Products on the way!

Don't forget to visit our website to learn about more exciting products that are on the way from Off Road Only!

SwayLoc™, Light Blades™, RockLox™, and additional lighting and recovery products are some of the new items that we're bringing to market. These products are great additions to our current product line. As always, innovation and quality execution separate us from the competition. Look for more new product updates in future newsletters!
